

SEVEN
LAST
MUSE

Official catalogue **2015 - 2016**

www.7lastmuse.ro

Who we are?

"Seven Last Muse" is a creative company aiming to be recognized as a notional heritor of Apple's, Lego's and Coca-Cola's built-in strengths: innovation, intuition, visualization.

We have chosen the name "Seven Last Muse" because these words express the desire to give a form to the beauty and the wish to make it available for those who appreciate it. So:

"Seven", it's that number which comes along with some of the most beautiful things in our lives : the days of Creation, the seven continents, the seven colors of the rainbow, the seven wonders of the world;

"Last" because the beauty seems to be the last thing we might need as simple beings, but among the first most important things that make us more than that.

"Muse" because beauty needs to be driven by inspiration in order to be properly expressed.

"7 Last Muse" intends that within next year to apply itself to products that will unveil new acceptances for use of life meaning.

Living a life means end of the day, enriching us by any breeze, fragrance, light, feeling, gesture or touch that have been allowed us to mark single moments of our pass, into a magical story to be said only by each of us.

Please find herewith a brief overview of our 3 brands part of "Seven Last Muse":

LightBag® - MADE FOR MAGIC MOMENTS

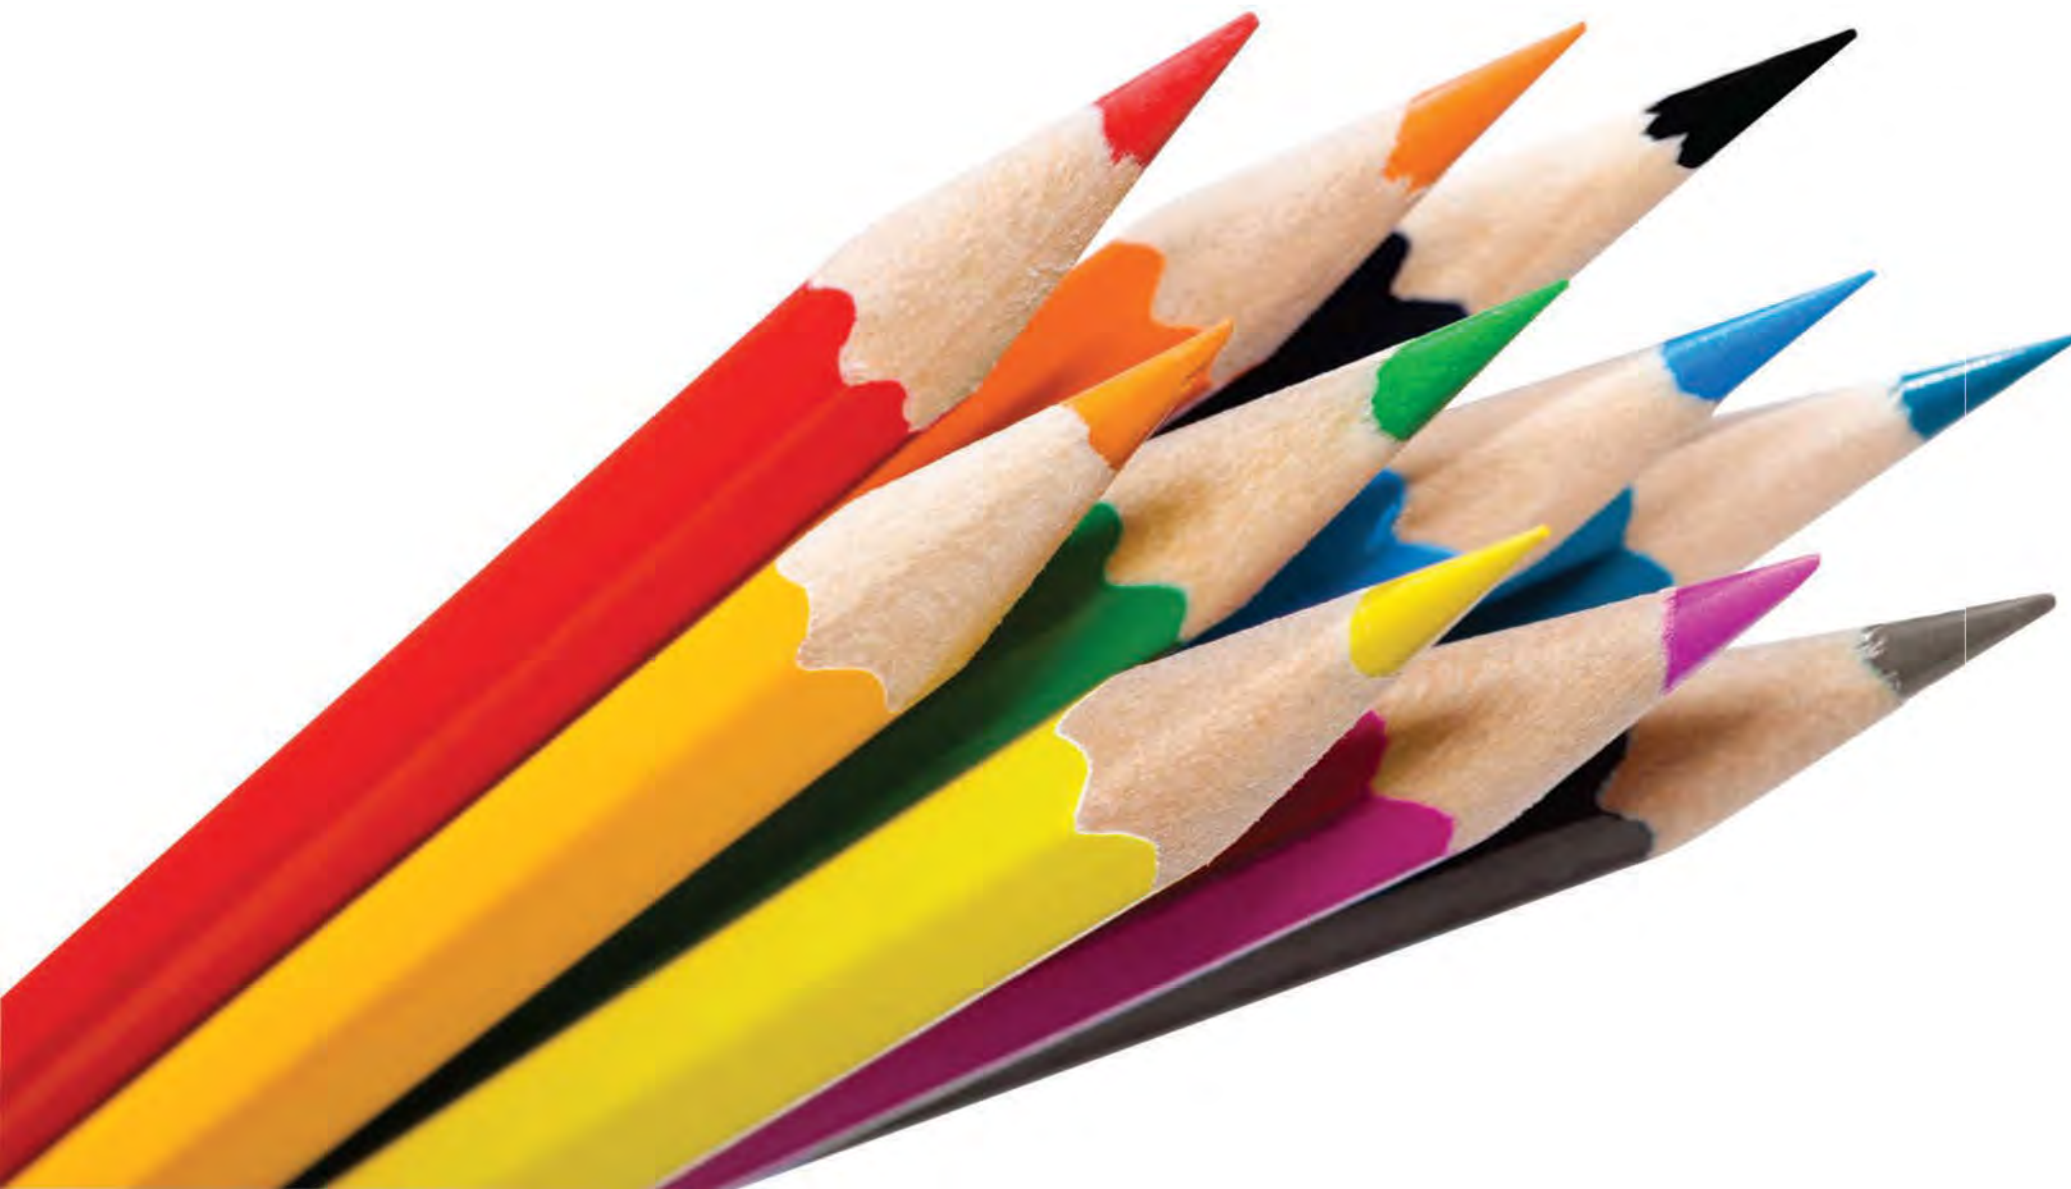

Is a (ready-to-use ,short-life, printed paper based, hand-made) decorative-product (tea-light) inspired by Chinese traditional lanterns, purposed for creating that kind of natural, light & shadows, magical atmosphere which proofs that your event deserves to be "the one". That fits with any celebrating moment of your life, no matter if we talk about a couple's dinner or a larger party.

colorup® - IT'S THAT SIMPLE TO MAKE GIFTS!

Is our new brand which we launched in the market in 2013 and we wish that Colorup® to become a popular and consecrated trademark of packaging in next 3 years. The four product lines (Kraft BICOLOR Collection, E Collection, LUXURY Collection and ELITTE Collection) that we promote, is addressed to all the types of customers and can cover all requirements of any of them.

sistelse® - GREEN BRINGS OUT THE QUALITY

Is the first and ours brand of soul. Under this trademark we produce luxury paper bags of Art Coated paper, Kraft paper or Special paper, customized with our printing machine with the graphic, colors, logo and information of the customer, in different size and with different finishing.

Simply, magic!
TURN EVERY EVENING
INTO A MAGIC NIGHT !

You'll have the chance to see how
the other will easier find the playful,
sensible, romantic or choicely side of
your personality.

What is it ?

LightBag® is a (ready-to-use, short-life, printed paper based, hand-made) decorative-product (tea-light) inspired by chinese traditional lanterns, purposed for creating that kind of natural, light & shadows, magical atmosphere which proofs that your event deserves to be „the one“.

Same fine selection of used materials are to be find as raw ingredients for any of 7Last Muse Company's products. In top of them there is only a bit from divine flashing inspiration and drops of happy work time dedicated to your pleasure.

Special moments

The atmosphere created by the play of light that crosses the transparent paper or which is guessed through the decorative gaps in the bag, incites imagination towards intimacy, nostalgia, romance, mystery and magic, enriching through the natural intensity of the fire the flavor of special moments in your life.

What makes it different ?

The majority of differentiating elements chosen to draw the identity of **LightBag®** was selected from the category of incremental innovations and is referred to:

- exclusive shape
- patented fixing system of the candle on the base of the lantern

SIMPLE & SAFE

There is no magic without safety. Your Lightbag has it all.

Safe Candle System, indoor usage model; made of 100% recyclable cardboard;

It's that safe?

Using the innovative **SAFE CANDLE SYSTEM**, we've manage to obtain a competitive advantage, by using 100% recyclable paper for the bag and simultaneously eliminating the risk of burning the bag by fixing the candle inside the paper bag in such a way that the flame has no possibility to touch its walls, even when is strongly jogged. You should keep it away from children, flammable substances and materials.

Do not leave at any time the **LightBag®** unattended !

ISI

① Iconic

LightBag® design wished to become an icon, something that you'll easily recognize all over the world.

② Simple

No tricks, no fireworks, nothing complex - we wanted **LightBag®** to be simple and become a part of your life.

③ Incredible

Use your imagination and make **LightBag®** your own idea. Use accessories, imagine locations, explore combinations and give life to your ideas with ease using **LightBag®**.

Shape

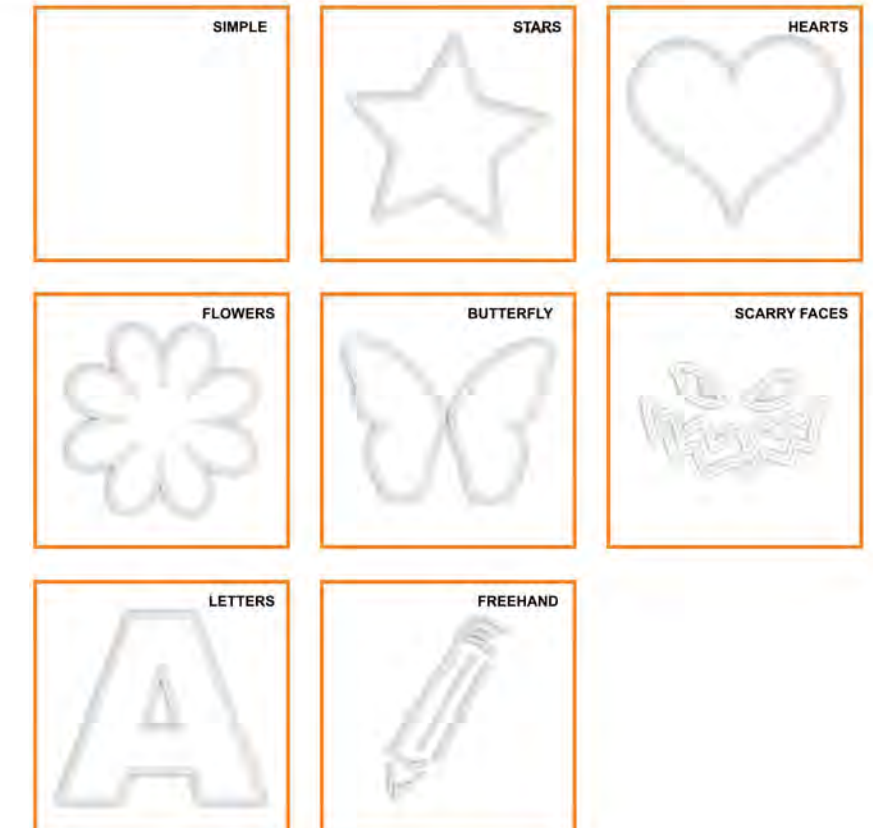

When we chose to design of **LightBag®**, we understood that we must think of a decorative product with short lifespan that can create emotion, sensibility and good-humor.

We started from the typical shape of a decorative bag (CLASSIC) and developed BOX shape in which bending the upper edges of the bag gives the lampoon a distinctive shape - almost parallelepipedic - offering it greater stability, and also enhanced capacity to dissipate the light from inside towards the viewer.

Models for hole punch

The high quality paper used to produce the **LightBags®** is transparent enough to allow visibility to the light emitted by the candle.

The holes pattern is chosen in regard to the printed design and helps the magical disperse of the light coming from the natural flame wavering inside.

Would you accept our proposed privileges?

Living a life means end of the day, enriching us by any breeze, fragrance, light, feeling, gesture or touch that have been allowed us to mark single moments of our pass, into a magical story to be said only by each of us.

LightBag® is one of the simple amenities which could bring us a magic flash to this journey.

A lighted with **LightBag®** background, could place the smiles of your beloved photos in a much elaborately frame to memorize Guests will find easily a comfortable small-talk anchor to join the party.

Memories of your party will gain a peculiar element to remain in the mind of your guests.

sensible, romantic or choicely side of
your personality.

LOVE Edition

EASTER Edition

HALLOWEEN Edition

CHRISTMAS Edition

Whether it is a wedding, an anniversary, a romantic dinner, a reconciliation or a marriage proposal, any special event implies creating the perfect surrounding. For its success, one needs to incite the 4 main senses: sight, hearing, touch, smell - in the most pleasant way. Knowing that powerful light is the enemy of intimacy, we offer you help through a Series of LIGHTBAGs that, by means of warm, diffused and relaxing light alongside themed prints, complete perfectly any atmosphere / romantic décor in order for you to truly enjoy Love.

"The Love story"

Love, the most inspiring and overwhelming feeling, does not have a history of its own despite the fact that it is the oldest theme registered in all mythologies and religions of the world. Instead, it contributed to the creation of history.

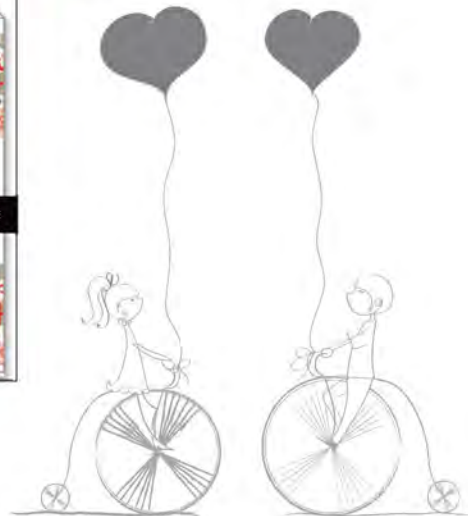

Love, many times, starts with Creation itself and continues with great love stories that unite for eternity couples that remained immortal, thus creating the tremendous poetry of the world, the great tragedies and an entire literature that still continues to be written. Among all the existing emotions neither has been so praised, described, narrated, painted or sculpted as love has been in all its shape (for one's self, romantic, platonic, for family members, towards Divinity, animals, plants or country). If a feeling could be transformed into an object, surely Love would be enacted as the oldest, newest and, at the same time, the most mysterious thing on the face of the Earth.

The on-coming of Easter fills our souls with joy each and every time. The atmosphere at home, the gifts from the Easter Bunny, the painted eggs, the smell of cake and specially made dishes, all of these make us fully live the Celebration of Resurrection of Jesus Christ.

To honor the Easter Holiday we created a series of LIGHTBAGs that, through drawings, shall remind you of the symbols of childhood, and through the light, of the victory of life over death, and of the renewal of the bond between God and humanity.

"The Easter story"

Easter represents one of the most important annual Christian holidays, which commemorates the fundamental event of Christianity, the Resurrections of Jesus Christ, Son of God, in the third day after his crucifixion on the Holy Friday.

The special magic of the Easter Holiday is given both by the spiritual meaning, the resurrection of Jesus Christ symbolizing the renewal of the bond between the human being and the Creator, and by the traditions (painted eggs, the traditional dishes, the service on Saturday evening with the receiving of holy light).

Therefore, Easter is a celebration of joy, a joy similar to that of the apostles when they saw Jesus brought back from the dead, and the greeting familiar on this occasion is also an expression of this joy: "Christ is risen! He is risen indeed!"

HALLOWEEN

Edition

Of course using LIGHTBAG as instead of "jack-o'-lantern" carved in a pumpkin, is less troublesome for you dear parents, but also will make envious friends of your child. Of course the designs and cut-outs of the LIGHTBAG along with its paper body will make the monstrous faces to be highly lighted, so more scary than typical pumpkin lanterns, but in the same time, being less heavy will encourage your kid to catch more candies. Placing LIGHTBAG on your house's window board will make your place to really look like spook's nook in the dark, but in the same time you'll miss the chance to ward away kid's crowd.

"Trick ore treating story"

The story of the carved vegetable as a lantern comes in many variants and is similar to the story of Will-o-the-wisp retold across England, Wales, Scotland and Ireland. British immigrants to North America brings with them the carved pumpkin, but it was first associated with the harvest season (Thanksgiving), long before becoming an emblem of Halloween.

This days becomes a way of protecting your home against Undead and vampires, but mostly a way of celebrating with the neighbors.

CHRISTMAS

Edition

Of course placing few LIGHTBAGs on your house's window board will make your grate to look warmer during the winter's Seasons evenings, but please be notice that this will make your house the target of your neighbor's curiosity and you'll have to chat longer by explaining them where you've got this cozy decoration idea.

Of course, the natural fire light beneath Christmas tree, along with its fir smack will add to your house a genuine winter feeling, but together with this you'll have to resist to your friends requests to stay longer visiting you during the Seasons time.

"The Christmas story"

Christmas is the name given to the holiday of the birth of Jesus Christ, celebrated in the Christian calendar on the 25th of December. Christmas in its actual form has passed though many transformations and has a complicated history. It has been established in order to stop all other pagan celebrations dedicated to the gods and to the winter solstice.

Since the beginning of the 20th century, Christmas became also a laic holiday, celebrated not only but the Christians, but also by the non-Christians, when the central point of celebration shifted from participating in a ritual in church to the homelike aspect of trading presents with family members or, in case of children, to "receiving gifts from Santa Clause".

Despite all that, Christmas is not a period, not a season, but a state of mind, it represents the most long-expected holiday that reminds us every year of the birth of our Savior, of the shepherds that received the great message of the birth and the wise men that were guided by the star towards the newborn that was about to change the world.

LETTERS

Edition

Surely, the first great knowledge everyone achieves is to read and write. For centuries, we are fascinated by the art of signs.

Being able to express what you feel in a creative way pursued our writers and artists.

We live in a world of signs, why not make it little funnier with LightBag Letters Edition?

Write your sweetheart name on your anniversary; make a top notch love declaration or everything that comes up in your mind with our Letter Edition. Surprise your friends and make them want to write their own message in an instant.

"The Letters story"

If man weren't measured in numbers, but rather letters, your life would end at Z. The fascination about writing is the possibility to keep contact, to express the feeling and keep track of them.

We think it is about making order in chaos, but that is nothing compared to the feeling you have when writing from your heart. We thought this collection as gift for one of our employees.

The idea grew stronger when we saw the great impact it has (be sure you will get some great memories and tears of joy when you gift them) and decided to bring some magic moments for other too.

And because there is another alphabet, whispering from every leaf, singing from every river, shimmering from every sky, we offer you the chance to say it through LightBags!

Letter “Q”

NUMBERS

Edition

Surely, the first great knowledge everyone achieves is to read and write. For centuries, we are fascinated by the art of signs.

Being able to express what you feel in a creative way pursed our writers and artists.

We live in a world of signs, why not make it little funnier with LightBag Numbers Edition?

A complete set of the numeral symbols system at your service in order you to be able to easily create messages inclusive one or multiple decimals numerate.

"The Numbers story"

Numbers are present in our everyday lives, whether it is that we are learning, working or just walking down the street. Counting has been troubling our ancestors since the very beginning.

Presently, we all use the decimal numeral system, yet few of us know that this invention had the number of fingers on our hands as its base.

Who knows how our civilization would have shaped up if humans didn't have five fingers on each hand.

SMS

Edition

Surely, the first great knowledge everyone achieves is to read and write. For centuries, we are fascinated by the art of signs.

We live in a world of signs, why not make it little funnier with LightBag SMS Edition?

The quick-fire technology of SMS messages inspires us to translate it for the more traditional environment of world paper. Not necessary aiming for the same popularity, we vow through our SMS Edition a charming communication medium for your fairy lights episodes.

"The SMS story"

On December, 3rd 1992 Papworth, a former developer at Sema Group Telecoms, sends the world's first SMS greeting to his friend Richard Jarvis, who at the time worked at U.K. service Vodafone:

" Merry Christmas!". Ten years after, SMS services really explodes and more than 250 billion SMS messages are sent worldwide.

Currently 200.000 SMS messages are sent every minute and over 6 trillion SMS messages are sent worldwide over the entire 2014 year.

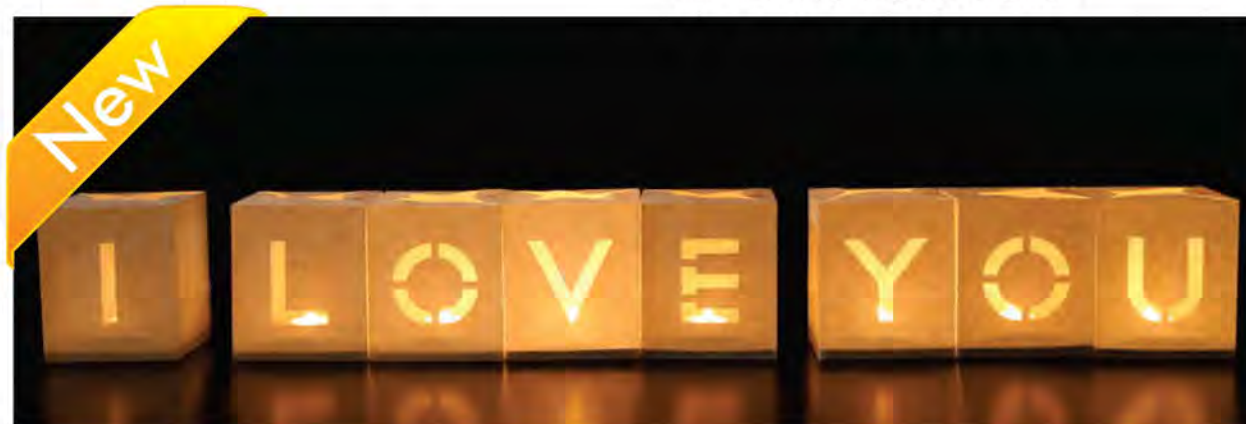

A fun, magic and creative experience! Think about the tons of SMS you receive during celebrations, or the long phone calls on your birthday. Just put that in visual and you will get a glimpse of the impact LightBag SMS Edition has on people.

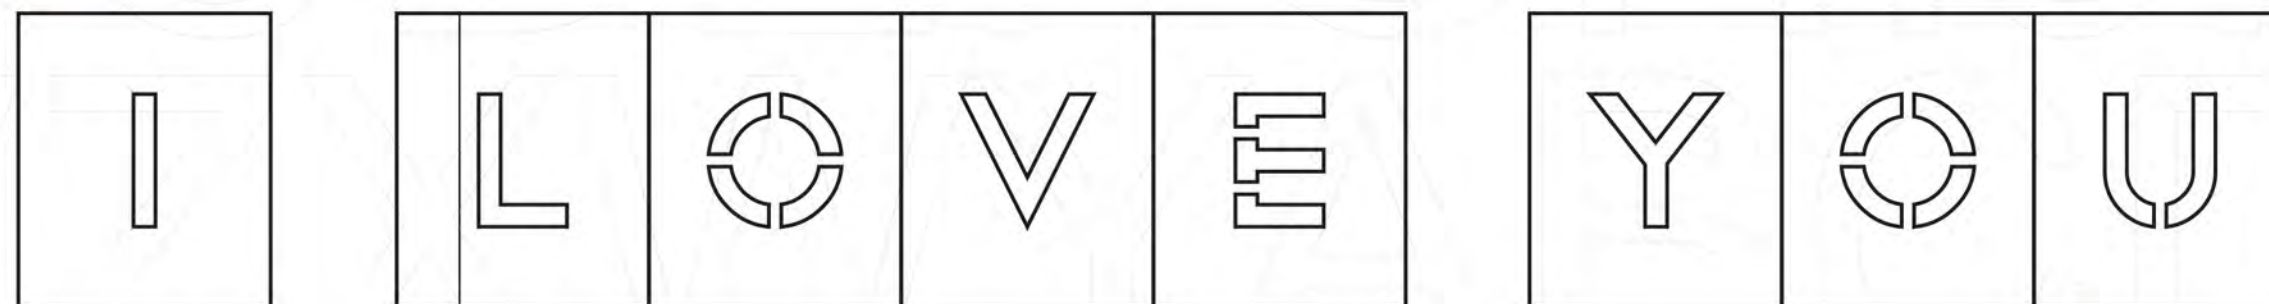

If you want to say hello, declare your love or to greet someone our SMS Edition will make you feel the king of texting

ABSTRACT

Edition

The abstract art works at a more profound level, intending to evoke feelings and emotions that we are not aware of. Through a play of light, color and feelings, we offer a search of the symbolic absolute expression in the dynamic arabesque of shapes.

"The Abstract story"

Abstract art is the term that, starting with the 20th century, is claimed by a series of trends, groups, creations that further away the elements of the visible world from the plastic image and sets in their place a system of signs, lines, spots, volumes that ought to express the action of human rationality and sensitivity.

Hence, the representation of thoughts and feelings in the act of painting appears in a spontaneous manner, using the expansive treatment of matter, abstract shapes and the most various colors.

PALETTE

Edition

Of course we all know that colors influence your state of mind, but how many of you know that some colors are far more special than you think?

Working with paper made us realize the impact design and simple colors have in improving your day to day life. Can you imagine a life full of dull colors, because we don't!

Pallete Edition was thought in order to bring you the joy of colors in your life, creating a special and magic atmosphere every time you light one.

"The Palette story"

Most of us recognize that certain colors inspire certain moods (which is why the colors we paint our rooms are so important), but few realize they can shape how we perform and think. They can even affect how things taste.

Color psychologists study these kinds of influences on humans and while their findings aren't all-inclusive-many personal factors, like cultural norms and experiences.

This is why we choose the most benefic colors for our Pallete Edition.

Yellow is an energetic color representing sunshine, vitality, and happiness. Like yellow, red is a stimulating color. It evokes confidence and enthusiasm and is attention getting (hence the color choice for stop signs and siren lights).

An offshoot of red, pink often has an opposite effect on people. Certain shades tend to promote calm and alleviate anger. After all, how angry could you stay in a bright pink room?

There's something both refreshing and relaxing about the color green.

Culturally, it suggests wealth and prosperity, but it also inspires renewal, openness, and peace. Blue is a popular choice for favorite color and it's a top pick for creating harmonious, open spaces-the right shades conjure images of vast blue oceans and skies.

FLAGS

Edition

Of course the entire point of a trip is to see new places, try new kinds of food and get to take advantage of your youth.

For some, the experience of travelling is equal with new cultures and enchanting memories.

Why not change the souvenirs with a LightBag Flag Edition and give a slice of the culture of a country to your love ones? Perfect as a gift for events from other countries or just to help you motivate to choose your next trip, LightBag Flags Edition will surely make you smile each time you light it up!

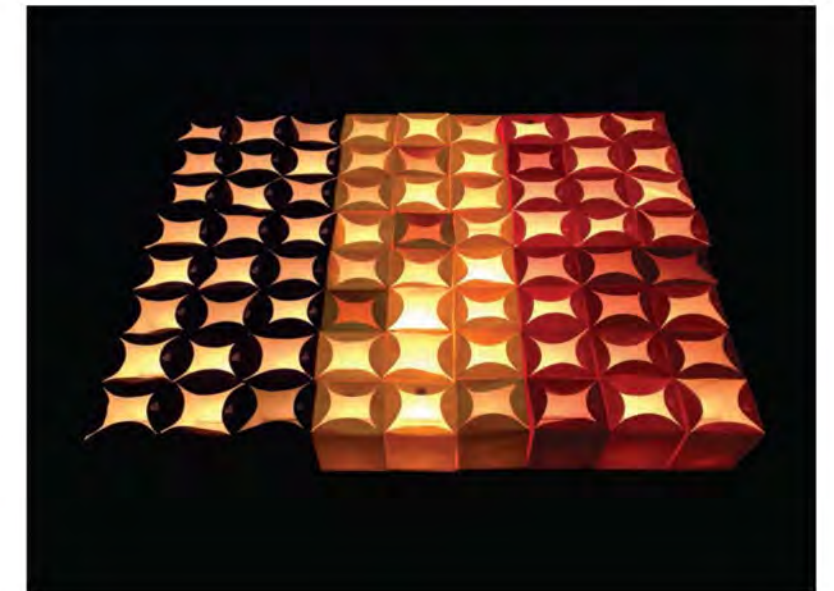

"The Flags story"

A flag embodies the hopes and aspirations of a country or state. It's more than just an emblem - it's a grand statement. It encapsulates its history, culture and popular beliefs. Flags originally helped ancient armies coordinate on the battlefield.

Today, every country and many organizations have a flag. Flags are usually hoisted on a flagpole and flown so that everyone can be reminded of the values and history of the country.

The first encounter you have with a country it's the name and flag.

This is why we wanted to add a special collection to help you spread the word about your trips, get some original souvenirs and motivate you to try different cultures.

I SOUVENIR

Edition

The souvenir should be a simple yet still a powerful clue from where we could start our revivals.

Through our recent launched Light Bag Souvenir Edition, we are aiming to give an occasion for your memories to come to life, keeping - by the sizzling light of a candle - their warmth and delicacy through a tangible image of your memoirs.

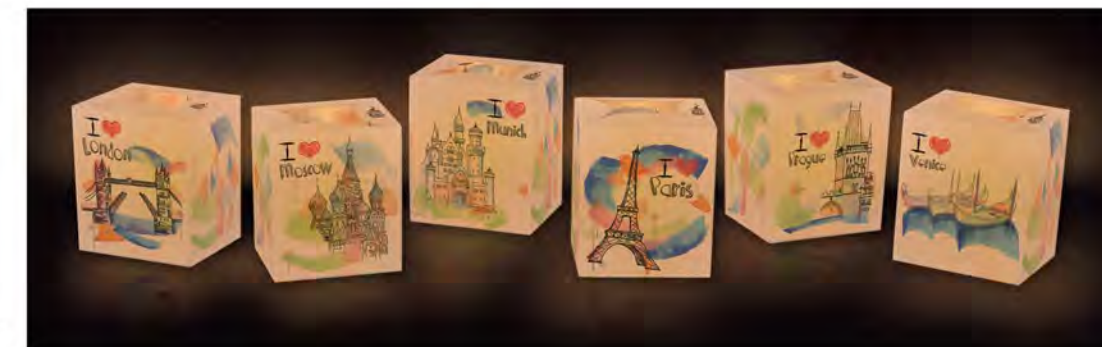

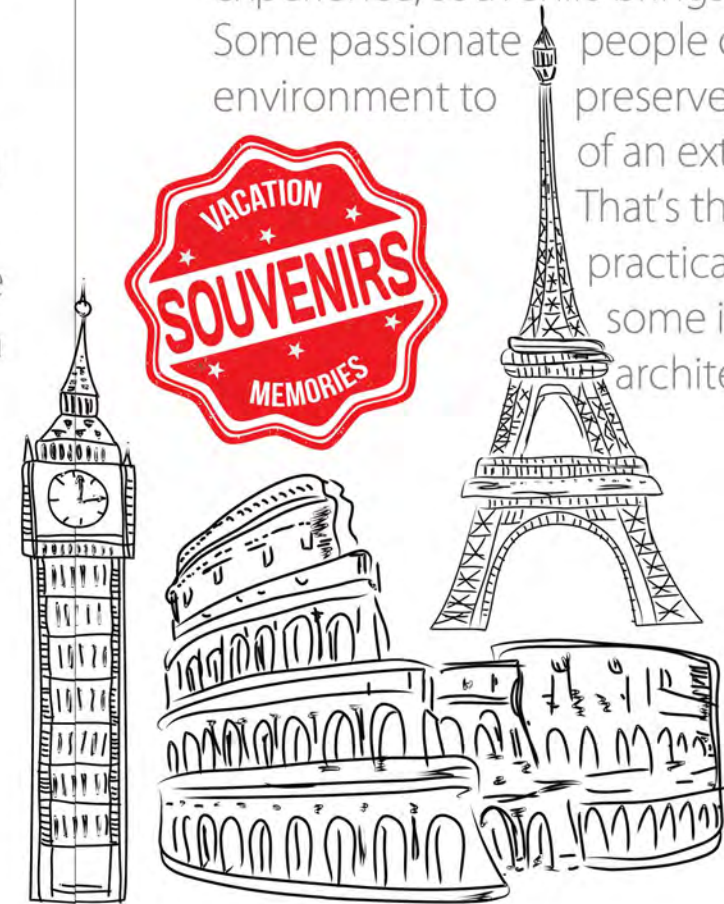

Just keep a piece of your pleasant memories about delightful places like Paris , London , Milan , Prague or any other place where your memento was captured.

"History of souvenirs"

Souvenirs have always formed a crucial part of the traveler's experience that uncovered key dates and fads. Souvenirs are impacted with treasured memoirs of a great trip. There are things that you don't necessarily realize you need until you're back home and your memories have to be gifted and shared with your friends, family or colleagues. A keepsake can be any object that can be collected as a memento of a visit. Having an intrinsic value or being just an inexpensive, yet still being a relevant symbol of a past experience, souvenirs brings us great value for less.

Some passionate people often choose to keep those memorabilia in a protective environment to preserve their condition, becoming as time passes by, valuable pieces of an extended theme collection.

That's the case that also works for LightBag – Souvenir Edition, which practically offers you the chance of safeguarding, with a few cents , some iconic landmarks of the most famous urban scenery and architectural milestones in the world.

European midsummer-related holidays, traditions, and celebrations are pre-Christian in origin. They are particularly important in geographic Northern Europe and elsewhere where this imported European celebration would be more appropriately called "Midwinter".. Bonfires were lit to protect against evil spirits which were believed to roam freely when the sun was turning southward again.

FREEHAND Edition

FREEHAND

Edition

Playing with kids makes them feel special, also being a great stress reducer for us, the overworked parents. The most attractive way to spend an unforgettable time along with your kids is by having fun by creating something together. Working closely for painting Lightbags on the next birthday party or during a family reunion, builds a bond that will last forever and why not, could help to find-out yet unknown artistic skills of your children. Gifted or less talented, you'll find an easy way for enjoyment of handicraft work by using our pre-designed series with patterned drawings dedicated to Seasons themes.

"History of Freehand creativity"

Painting and paper crafting are amongst the eldest humanities pursuits. As time passed, it spreads among most cultures as a virtuosity occupation, becoming a freestanding trade and gradually reaching the stage of folk-art expression mostly within Chinese civilisation starting of the eighth century. In these latter days, painting and paper crafting become one of the most outspread hobby, filling the leisure time for lots of modern people striven to practice the appetency for fine handicraft activities.

**Simple, amazing and
easy to wrap.**

IT'S THAT SIMPLE TO
MAKE GIFT!

We are trying to stay close, to learn our
clients' preferences and to be certain that the
products manufactured are as they desired.

PLACE IT!

WRAP IT!

DESIGN IT!

GIFT IT!

Pasion for packaging.

Is our new brand which we launched in the market in 2013 and we wish that Colorup® to become a popular and consecrated trademark of packaging in next 3 years. The four product lines (Kraft BICOLOR Collection, E Collection, LUXURY Collection and ELITTE Collection) that we promote, is addressed to all the types of customers and can cover all requirements of any of them.

Experience and innovation are the key factors of performance. The rest is just reliability

In order to be successful on a market where competition is tougher and ougher, it is necessary that performance, when it comes to the quality of products and services offered, grows and is officially recognized.

Our products are a statement of quality for our business!

Competitiveness, innovation and flexibility are factors without which you cannot keep pace with the continuously changing market. We constantly invest in technology and into the production process of packaging, in order to deliver best quality products.

Client oriented attitude.

Our entire activity is carried out around the client's satisfaction. We approach a clear vision upon the relationships we have with our clients because we desire to become trustworthy partners and to offer perfect solutions for each and every one of them. For that matter, everything we do begins with understanding our clients' needs, fully aware of the fact that our success depends on theirs.

GREY

- kraft paper 100gr
- SMALL size - 20 x 21(H) x 10cm
- MEDIUM size - 27 x 26(H) x 11cm
- BIG size - 36 x 31(H) x 12cm
- wrapping tissue paper 17gsm

User instructions:

1. Take the present bag, the decorative paper out of the plastic BOPP bags.
2. Open the bag and put the present inside.
3. Insert the decorative paper(prepared using the steps from below) so that the content of the bag is not visible and the upper part of the paper forms a

decorative element.

- Place the sheets of paper one on top of the other differently positioned on the imaginary center point.
- Grab the 2 sheets of paper with two fingers, right in the center, and pull upwards, thus resulting a (bicolor) decorative element.
- Insert the decorative element in the present bag.

LUXURY Paper Bags

**“Permanent supply”
paper bags.**

In case there is not enough time for executing personalized bags request, a very good solution could be purchasing already made bags, which are constantly on stock. They are high quality bags, made out of double coated paper of different thickness, depending on the finite size of the bag. The distinct aspect is given by the glossy lamination.

Brings out the quality!
FOR SUCCESS AN ABSOLUTE
PERSONAL STYLE !

We are trying to stay close, to learn our clients' preferences and to be certain that the products manufactured are as they desired.

Pasion for quality packaging.

We have grown, year after year, and we have constantly developed, offering the very same solutions that every client needs.

We managed that because we let ourselves be driven by our passion for quality.

We are passionate about everything we do, offering, for more than 17 years, best quality products, together with the care for every detail.

The same passion that determines us to continuously innovate.

Experience and innovation are the key factors of performance.

The rest is just reliability

In order to be successful on a market where competition is tougher and tougher, it is necessary that performance, when it comes to the quality of products and services offered, grows and is officially recognized.

Our products are a statement of quality for our business!

Competitiveness, innovation and flexibility are factors without which you cannot keep pace with the continuously changing market.

We constantly invest in technology and into the production process of packaging, in order to deliver best quality products.

Client oriented attitude.

Our entire activity is carried out around the client's satisfaction.

We approach a clear vision upon the relationships we have with our clients because we desire to become trustworthy partners and to offer perfect solutions for each and every one of them. For that matter, everything we do begins with understanding our clients' needs, fully aware of the fact that our success depends on theirs.

ASSISTED Production

The concept of "**Assisted production**" meets clients' necessities with a plus of attitude, differentiated through service quality and permanent assistance from our technicians, in order to maintain a high standard among our products and to transform our clients into lasting partners.

Competitiveness, flexibility and 4 standard steps.

In order to offer exceptional services one requires vision and team work. Open to a **flexible collaboration**, we intend to carry out the collaboration with our clients in a diverse manner which acts most efficiently upon their exigencies. It's a proof of respect and appreciation towards all our clients, at whose success we feel obliged and proud to contribute to.

Step 1 - Defining the product.

After receiving the Price Request, the details transmitted are analyzed and we recommend the best option in terms of dimension, material and finishing, bearing in mind the purpose for which the product will be used and what it will contain. In most cases, the materials used in the production process have a great influence on the price. Therefore, in the **Price Request**, we are obliged to offer the best technical solutions to ensure maximum quality at the optimum price.

Step 2- Launching the order In the system.

After receiving the External Order, the technical specifications are uploaded into the system in order to supply with raw materials and materials for the execution. Also, the client receives a Registration Confirmation of the order that contains all the agreed details.

Step 3 - Processing, execution and delivery of the order.

Subsequent to launching the External Order to the client, we will send a montage of the work which contains the unfolded format of the packaging (stamp model) realized by our DTP department in order to receive final approval (BT). For client safety, we are able to realize a sample according to the technical specifications so that the final product can be visualized and to eliminate all risks of error. Permanent following of the finishing operations, by the person responsible, helps overcome all unpredictable situations by finding the optimal solution and solving the problem, finalizing the work and delivering it at the agreed delivery date.

Step 4 - Quality control.

„Quality control" is carried out along a couple of very well defined steps.

1. We prepare the necessary card for Quality Control for each order.
2. We follow every single step of the technological process, starting with the launch of the order, the execution, finishing and packaging of the products.
3. We make sure that the products are delivered respecting size, quantity, colors, finishing and all technical characteristics stipulated in the order.
4. We take care that the packaging of the products is done properly so that they shall not be deteriorated during loading/unloading and transportation.
5. We deliver the products along with all the necessary documents for respecting the legislation.

We do all these things so that all our clients can always benefit from our products' quality, bearing our company's signature.

LUXURY Paper Bags

Packaging reflects your company's image.

Whatever the field in which the client carries out its activity, packaging can reflect the image of any company. A professional execution according to the client's expectations is our main concern.

Finishing for additional quality.

Mat or glossy lamination modifies the look of simple, printed paper, thus resulting a special packaging. Selective UV varnishing, emboss or warm folio application, can highlight certain details of the desired design.

Solutions for maintaining the esthetic values.

Luxury paper bags do not always mean expensive bags that exceed the budget. For the satisfaction of our partners, we recommend the best solutions that, on one hand permit cost reduction, and on the other, maintain qualitative and esthetic values.

Quality and excellence in advertising.

The luxury paper bags, extremely elegant, are handmade in order to ensure the best quality. These are ideal for promoting the company and the brand.

KRAFT Paper Bags

Packaging reflects your company's image.

Whatever the field in which the client carries out its activity, packaging can reflect the image of any company. A professional execution according to the client's expectations is our main concern.

Solutions for cost reduction.

Replacing a model completely handmade with a model of similar quality, but produced automatically, can save up to 40% in product cost.

For this type of bags, the print is done flexo and there are special standard dimensions and minimum quantities that cannot suffer any modifications.

White or brown kraft paper, the optimum solution.

Kraft paper bags are a very good alternative for luxury paper bags. Lower production costs are also due to the fact that there is no need for further finishing (UV varnishing, lamination UM). We have technological solutions in order to ensure a good quality of the offset print even on this paper which does not have a protective layer.

Recycled paper for an ecological advertising.

Kraft paper bags, extremely elegant, are semiautomated executed, and their quality is very good. If recycled paper is an option, these are ideal for promoting your company and brand.

TEHNICAL Details

Price offer request

In order to obtain a correct price offer, we ask you to analyze all the details mentioned below and to specify in the price request as detailed as possible the characteristics of the products desired.

Dimension

We believe that we are capable of realizing any dimension, but depending on the client's request, we can propose a dimension that enframes in the maximum standard sheet, with as little losses as possible.

In this regard, we can provide 120 standard dimensions and in the table on the next page you can find the most wanted 30 dimensions.

Paper

The client must specify the type of paper and its width. Our recommendation for the paper is based on the desired size.

Standard types of paper used in production are:

- double coated paper UN 170gsm ; 200gsm ; 250gsm
- white kraft paper 170g
- white ribbed kraft paper 120g
- brown ribbed kraft paper 100g
- special cartons

Print

The client shall specify the number of colors (exteriornnterior), the type of color (CMYK or pantone process), as well as the area to be covered in %.

In case the graphics is different on the two sides, it is mandatory that this detail is mentioned in the price request.

Handles

Considering the type of paper which the client has chosen, the following types of handles can be used:

- textile polypropylene lace
- satin ribbon
- twisted white/natural paper
- pressed handle (bonono type)
- thread
- metal staples

Quantity

The minimum quantity for an order is 500 pieces.

In case of a bigger order, the unitary price will be reduced significantly. You can obtain net advantages in case you estimate the necessary for 1 year and launch a single final order.

Finishing

Special finishing can be realized depending on the type of paper used:

- glossy lamination*
- mat lamination*
- selective UV varnishing
- emboss
- warm folio

** these types of finishing can only be done on double coated paper*

Graphics.

The graphic can be sent in "CDR" or "AI" format, vector (with fonts converted into curves). It can be sent by e-mail, transfer or CD.
In case you do not have a graphic, you can turn to our creation department's

Approval order - BT.

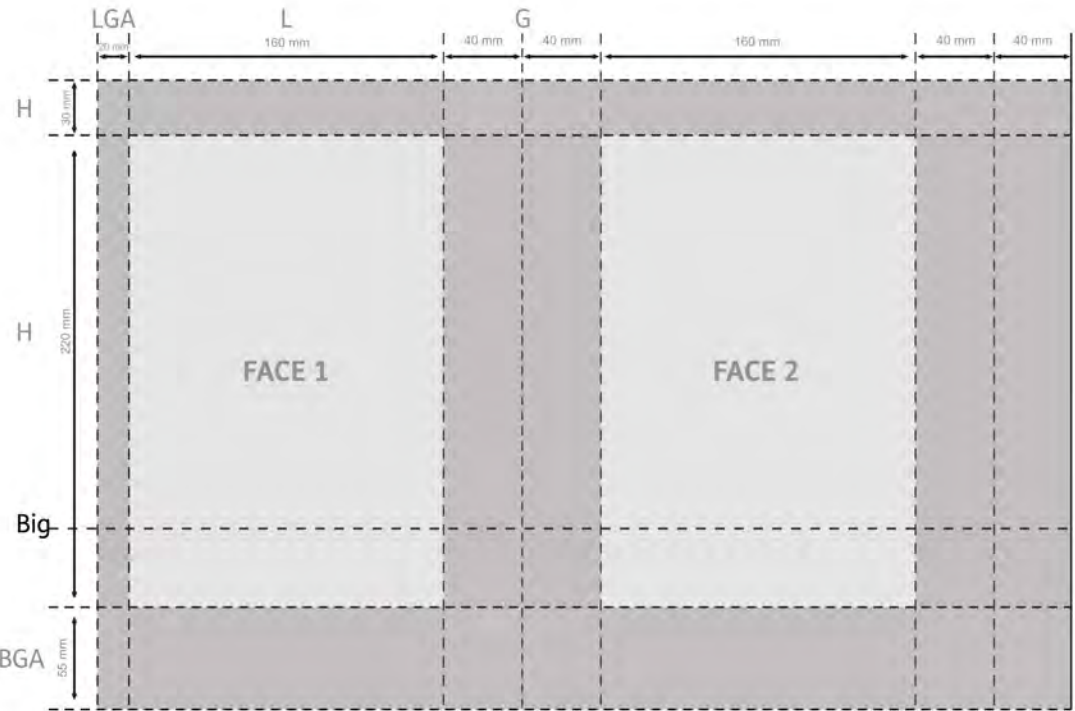

In case of a final order, our DTP department will send a stamp model at the desired dimension in which the graphic wilt be applied (see model on next page).
Before print, the client will receive for BT a montage for final verification.

Special Finishing

Lamination.

It's the operation of covering a paper base on one side with a layer of plastic foil (BOPP). Lamination can be glossy, mat, metal or colored.

We recommend double coated paper for the paper base, in order to protect the print and for better resistance.

Spot UV varnishing.

UV varnish can be applied integrally or selective.

Selective application is done serigraphic, on certain areas of the bag, in order to give it a special look and to emphasize the important elements.

Emboss.

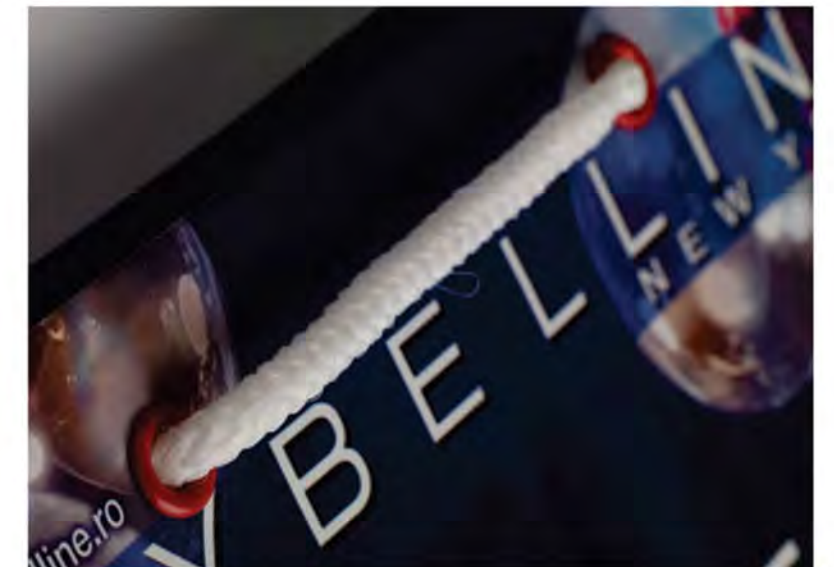

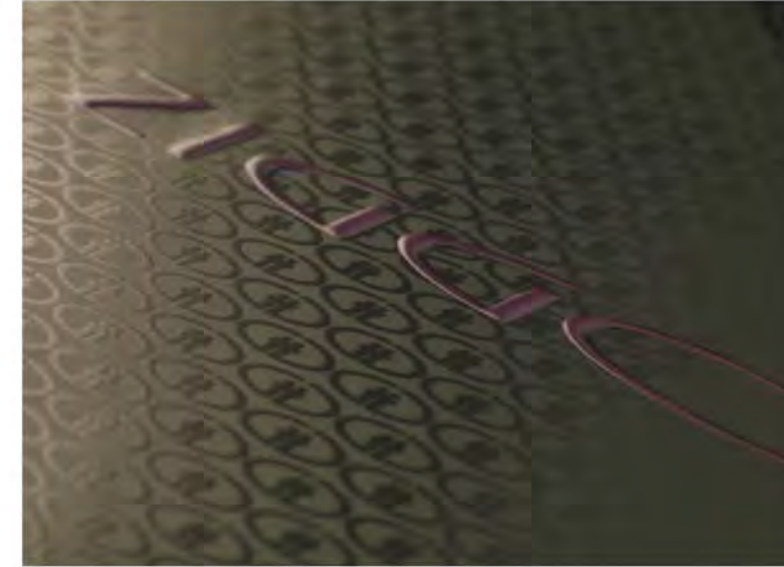

Mechanical deformation process of the base meant to highlight certain design elements. Can be applied on any type of coated or kraft paper.

Hot Stamping.

The process of application of a foil layer on a paper base with or without print. Can be applied on double coated paper (simple or laminated), kraft paper and special cartons in order to refine the packaging.

Metal eyelets.

Metal eyelets are metallic rings (in different colors), that can be applied in holes made in the paper base. After that, the textile lace is introduced, the bag handle becomes more resistant, and the esthetic appearance is changed in a positive way.

Quality Management System - ISO 9001

Quality of services results from implementing and maintaining the management system, created in order to constantly improve performance. We are very strict concerning the quality control of our products.

Environment Management System - ISO 14001

Our company takes responsibility regarding environment protection and conservation, towards our partners, the authorities and our employees. In this regard, we have started the procedure for implementing the environment management system 14001.

T E C H N O L O G Y

An abstract painting with a complex composition. The left side features a large, dark blue circular shape with a lighter center, surrounded by green and yellow brushstrokes. The right side is dominated by a large, textured area of orange and red, with a repeating pattern of semi-circles. The bottom section shows a mix of purple, pink, and white, with some geometric shapes like a triangle and a square. The overall style is expressive and colorful.
